
EDUCATION

The University of Texas at Austin (Austin, Texas)

Present

Master of Science in Artificial Intelligence

The University of Texas at Dallas (Richardson, Texas)

2025

Bachelor of Science in Computer Science

- Prominent Coursework: Software Engineering, Data Structures and Algorithms, Computer Architecture, Artificial Intelligence, Machine Learning, Systems Programming in UNIX and Other Environments

Data Science Certification

- Prominent Coursework: Statistical Learning, Data Analysis in R, Scientific Computing using Python, Methods of Applied Mathematics, Linear Algebra

EXPERIENCE

AI Reviewer Contractor, Handshake AI

- Evaluates AI-generated responses across different axes of generation following project trainings and calibration exams
- Compare model outputs and evaluate strong and weak points in specific axes with thorough written justifications
- Extreme attention to detail with a quality assurance score above 88 percent of contractors assigned to projects

HONORS & AWARDS

Goldman Sachs Excellence in Computer Science Scholarship

June 2024

- Awarded by Goldman Sachs to one undergraduate upperclassman in the Erik Jonsson School of Engineering and Computer Science each year determined by merit, GPA, participation in organizations, and more

Dean's List

- Awarded each semester for achieving a GPA in the top ten percent of students in each respective school

PROJECTS

VibeMap – AI Playlist Creator

- Co-developed this full-stack application with a Machine Learning pipeline to generate cohesive playlists into a user's account using a given playlist
- LLM generative AI used for building, Scikit-Learn and Librosa libraries are used as well as Spotipy API calls

SKILLS, TALENTS & ACHIEVEMENTS

Foundational C# with Microsoft Certification

Feb 2024

Proficient skills:

- Python, Java, C++, Scikit-learn, JavaScript, Collections Framework, Tailwind CSS
- Claude, ChatGPT, and more LLM experience with building applications
- Leadership, Team building, Communication, Critical-thinking and Instruction Following

Spanish full working proficiency, English Native proficiency

ACTIVITIES

CS^2 (Computing Scholars Honors Program) Student

- Participate in meticulous courses for deeper learning and mentor other students with astute leadership skills and excellent communication skills

Artificial Intelligence Society (AIS) Member, 6 hrs/week

- Utilized ASR models to transcribe user microphone input with 94% confidence. Collaborated with a team of engineers to utilize the Hugging Face AI models for backend development
